What does the **Plus+** mean in our name? **It means we are not just a group who studies the Bible.** We have looked at all manner of things having to do with our faith journeys and decided our name should reflect it. We've studied such diverse topics as the, the roots of religion in prehistory, the architecture of and the life in the holy land, the historical Christ, each of the five great religions, and so much more. Now we will learn about the newest archaeological discoveries in the Holy Land with another great speaker, Jean-Pierre Isbouts, Faculty Emeritus at Fielding Graduate University who has teamed up with National Geographic for this stunning video series. Our post lecture discussions are deep and the bonds we make with each other are deeper. Yes, this is a college-level course, but we are a fun-loving group that loves to learn. Check us out.
